

## Objective

Seeking a role as a Developer

## Experience

### Baker Meyers & Associates (Nashville, TN)

2012 - Present

PHP Developer / Project Manager

- Building an Admin site from scratch to manage Dealer Services, Employees, Accounts Receivable, and Payroll for ClassifiedRide.com. (<https://github.com/stephmcglathery/ClassifiedRideAdmin.git>)
  - I am the only one on this project (front-end as well as back-end). I created the MySQL Databases and hand-write the code (I use the notepad equivalent in openSUSE). I did not use a Framework on this project.
  - Utilized an AJAX log-in for the 4 log-in Systems, Java-Script form validation on all forms, J-Query Infinite-Scroll and J-Query Auto-Complete Search.
- Help maintain other sites. (PHP & A Little Java)

### Sync Innovations (Nashville, Birmingham, Dothan, Huntsville)

2011-2012

Manager

- Opened & managed satellite offices (Marketing firm that has partnered with The Exchange)
  - Recruited, Hired/Terminated, Trained, Developed, Promoted, Motivated, and Managed crew
- Maintained network and computers in offices

### Bowling Green Wildcats (Bowling Green, KY)

2008-2010

Co-Owner

- Created this non-profit organization for boys age 5th grade-10th grade (AAU/YBOA)
- Designed, coded, and maintained the organization's website to feature teams, players, tournaments, schedule, etc.
- Responsible for acquiring sponsors and setting up fundraisers
- Responsible for managing coaches, schedules, practices, hosting & attending AAU/YBOA tournaments (road trips)

### Best Buy Geek Squad (Bowling Green, KY)

2009-2011

CIA – In-Store Tech

- Diagnose, Repair, & Maintain computers (hardware and software)
- Tech Support and advice (Was certified in every department for every appliance/gadget sold in the store)

### Affinity Group (Bowling Green, KY)

2006-2009

Lead Email Marketing Coordinator

- Coordinate the coding/implementation/deployment of all marketing email campaigns using DM5
- Code emails and landing pages from PSD, image, PDF or from scratch into clean and organized HTML
- Act as QA resource on all email campaigns during testing and final deployment
- Troubleshoot technical issues if problems arise with the tracking, implementation, or deployment
- Responsible for writing & maintaining the Standard Operating Procedure for the email department
- Train new employees / Code Review.
- Set up and lead all weekly email status meetings

## Education

### Western Kentucky University

- B.S. – Computer Information Systems
- Minor – Entrepreneurship
